DETAILED ACTION
Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-6, drawn to a gyroscope, classified in class 073, subclass 517.
- II. Claims 7-14, drawn to a method of making a gyroscope, classified in class 216, subclass 002.

Inventions II and I are related as process of making and product made. These inventions are distinct because the product as claimed can be made by another and materially different process (MPEP § 806.05(f)).

During a telephone conversation with Bruce Johnsonbaugh on 10/24/2003 a provisional election was made without traverse to prosecute the invention of group II, claims 7-14. Affirmation of this election must be made by applicant in replying to this Office action. Claims 1-6 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

This application is in condition for allowance except for the presence of claims 1-6 to an invention non-elected without traverse. Accordingly, claims 1-6 are cancelled by the following Examiner's amendment.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Bruce Johnsonbaugh on 12/02/2003.

The application has been amended as follows:

Cancel claims 1-6.

Allowable Subject Matter

Claims 7-14 are allowed.
